

To Members of the Reliability Small Group:

The next meeting of the Reliability Small Group is Tuesday, April 10th, from 10 - 5 at the PDX Conference Center. The conference call bridge is 1-877-295-7894, guest code 500. Our goal for the meeting is to get a handle on the next Reliability Functional Agreement (review and further develop substance, develop an approach for determining the right funding level, and identify further work). I hope to have more detailed meeting materials to you by COB on Monday.

Thanks! Have a great weekend, Kristi
