

## OASIS/Integration Staging

### Top Priorities:

- 1) Common Portal –
  - a) Stage 1 – yes – pre Jan 2008 developmental work to implement store front. How fund prior to effective date of Integration functional agreement?
  - b) Stage 2 – single point of contact for requests to be time-stamped and distributed by CG
- 2) Common Queue – needs development post Jan 2008
- 3) Uniform Business Practices – not a stand-alone function, rather, UBPs are those that are necessary to, and flow from, implementation of Common ATC, Common Queue, and 1)a) and 1)b), above.
- 4) Common ATC – CG monitor NAESB process prior to Jan 2008. How fund prior to effective date of Integration functional agreement?

### Timelines:

- 1) Pre-Jan 2008: How fund prior to Jan 2008?
  - a) Common Portal (store-front) pre-development work.
  - b) Common queue pre-development work to ensure that software is capable of implementing stage II Common Queue post Feb-08.
  - c) Monitor NAESB/NERC/WECC Common ATC development.
- 2) Feb 2008:
  - a. Store-front basic portal implement.
  - b. Vehicle for Common Queue in-place and available for implementation. Such as ability to have one-stop access to ‘deal-maker’ for customer to configure path across multiple systems, sending multiple-system segment requests, and all segments linked such that one fails then whole path fails.
- 3) Jan 2009:
  - a) Common Queue implementation including ‘deal-maker’ for ST and LT requests.
  - b) PEFA interface to study LT requests involving multiple-systems.
