

**PROJECT NAME** (item 5) Getchell to Granite Falls 115 kV Line

**Program Description**

Construct a new 115 kV line (6.0 miles) of 1272 kCM conductor from the Getchell Tap to Granite Falls Substation. This line will provide a look feed from the BPA Murray to the BPA Snohomish Substation.

**Sponsor** Snohomish PUD No. 1

**Commitment level** Med - based on present forecasts the construction is committed to the schedule. However changes in load and generation could impact schedules.

**Schedule Completion Date** November 2013

**Is Project "Fast Track"** No

**Project Implementation Stage** Currently in the Planning Stage

**Location** See item (5) on attached map  
"Map of Major Projects Transmission Expansion 2008-2021"
